Soul Retrieval & Divination Private Sessions

Soul Retrieval: Many emotional illnesses and physical diseases have origins in 'soul loss'. Traumatic events can cause a vital part of our spiritual essence to separate (dissociate) from us. This loss results in diminished self-esteem, lower energy, feelings of vulnerability, difficulty in creating a path of joy and openness for dis-ease. Soul Retrieval is a ceremony to reconnect the lost soul parts to the person. This is a 2 hour session for \$200.

Shamanic Divination: Divination can be used for a follow-up after having had a soul retrieval or to ask questions and gain another perspective or consider action to support our goals and desires like a psychic reading. A 1 hour session is \$125.
